I have no ideal whitch is the best soulition to fix our water probem,but I am very concernsd and have been for several years.I am not sure the Ky river has the capacity to serve our future needs because of of our expected growth in the say 25 to 50 yrs.Maybe another water source pulling from Ohio river wolud solve all of long term probem.Who knows but I am of the opinion something must be done before another severe drought comes and cose all kinds of probems.The time has come for us to take ACTION.  
J.D.Tolson a water user
